Shashi Kant Prasad
Penetration Tester

I'm an OSCP certified cyber security professional with expertise in penetration testing across various domains including Cloud, Web Apps, API, Active Directory, and DevOps. At Infosys, I worked as an Appsec Engineer with 1+ years of experience securing Enterprise Applications and 2+ years of experience developing Microservice-Based RESTful APIs using Java Spring-Boot Stack for a major US telecom company.

WORK EXPERIENCE

Engineering Analyst
Infosys (Application Security Engineer)

01/2022 - 06/2023
Achievements/Tasks

- Discovered and addressed vulnerabilities across Verizon's entire iEN (Intelligent Edge Network) project.
- Performed infrastructure and application penetration tests
- Implemented SAST and DAST tools in CICD pipeline to secure micro-service based Java applications.
- Manual Source Code Analysis to identify any OWASP Top 10 vulnerabilities.
- Fixed vulnerable APIs and their associated code base.

Engineer
Infosys (Full Stack Developer)

09/2019 - 12/2021
Achievements/Tasks

- Developed numerous features (micro-services) for Verizon's L3VPN and E-Line services using Java Spring-Boot Tech Stack.
- Automation and Testing of delivered features.
- Collaborated with multiple vendors across geographically distributed teams to develop, test, and deploy a Microservice-based Enterprise Application.
- Recieved Appreciation from clients for my exemplary job in delivering features in an agile manner.

EDUCATION

BTech - Information technology
Delhi Technological University (DTU)

2015 - 2019

Self Learning
TryHackMe, HTB, Offsec and Other Platforms

CTF & Learning Path

- CloudGoat , AWS Goat
- Red teaming - THM
- Web Fundamentals - THM
- 50+ machines - HTB
- Cloudfoxable, Flaws
- CompTIA PenTest+ - THM
- 150+ room - THM
- 50+ machines - PG

SKILLS

AWS Penetration Testing

Web Application Penetration Testing

API Penetration Testing | Active Directory | DevOps

Python | Java | Spring Boot | Microservices

PERSONAL PROJECTS

AWS Cloud Resume Challenge
- The Cloud Resume Challenge is a step-by-step project designed to help individuals build and showcase their fundamental skills on the AWS platform.
- Website : www.cybersecshashi.com

CERTIFICATIONS & ACHIEVEMENTS

Offensive Security Certified Proffesional (OSCP)

API Penetration Testing issued by APIsec University

Infosys Certified Ethical Hacker

Rank 10 - Cloudfoxable (AWS Hacking Platform)

Top 1% [0xD] [G0D] - TryHackMe

Top 1% - PortSwigger Academy

CTFs Completed : CloudGoat, AWS Goat, Flaws, Flaws2
